POLICY AND GUIDELINES FOR SUPPORT TO VOLUNTARY/NON-GOVERNMENT ORGANIZATIONS IN PUNJAB :

I. BACKGROUND NOTE :

- 1.1 In a developing society, economic, social and cultural needs of the people keep on changing with the trends of development. Though Punjab is one of the developed States in the country and has a per capita income at current prices of Rs.18213 per annum as per quick estimates for the year 1996-97, its literacy rate is only 58.51%. According to the latest estimates, about 12.12 lakh families in the State are living below the poverty line, of which 6.50 lakh belong to the Scheduled Castes.
- 1.2 The community-based approach for solving people's problems to step up developmental activities is the first step to ensure people's participation in the development process. Decentralisation of the Planning process is a milestone in this direction. Of late, it has been realised that the involvement of the voluntary organisations/non-government organisations can effectively help in reducing the delivery cost, proper identification of beneficiaries, flexibility and simplicity in their approach for introducing new schemes having more relevance for the beneficiaries. A large number of such organisations are making significant contributions in this direction.
- 1.3 A conference was organised of over 100 selected non-governmental organisations and government's representatives at New Delhi during the year 1994 to work out a plan of action for facilitating an inter-face between the voluntary organisations and the government, so that they can work in tandem at all levels for the upliftment of targetted sections of society. The Planning Commission had identified the plan schemes, which could be implemented more effectively by the NGOs. The Council for Advancement of People's Action and Rural Technology (CAPART), a registered society, is assisting voluntary organisations/NGOs, for taking up such activities under various programmes identified by the Govt. of India.
- 1.4 With the objective of associating voluntary organisations in the various developmental and social welfare activities, the State Government has decided to provide monetary assistance to such organisations to achieve the objective of economic and social upliftment of targeted sections of society.

II AREA OF OPERATION:

All sectors of human resource development will be taken up as priority sectors. The emphasis would be on encouraging self employment, leading institutions in specific areas shall be approached to provide training and employment to unemployed youth.

While adopting the neglected segments of the society, the endeavor would be to encourage community participation both in planning and implementation with the help of mass based self-reliant organisation, and to take up projects to sustain the achievements already made. It would be the aim of Govt. to reach the most needy in the society, through innovation and experimentation.

The following sectors would be specially targeted:

- i) Elementary and Adult Education
- ii) Vocational Training of adolescent Girls and women from poor and needy Families.
- iii) Reproductive and Child Health Programme
- iv) National Health Programmes
 - a) Malaria Control
 - b) AIDS
 - c) Immunisation Programme
 - d) Drug De-addiction Awareness
 - e) T.B.control etc.
 - f) Health Education
- v) Provision of potable drinking water to all.
- vi) Environmental Improvement of urban slums, programmes relating to the welfare of Scheduled Castes, Backward Classes, programmes for welfare of women, backward and needy families and projects for rehabilitation of school drop out, street children, children and physically handicapped.
- vii) Nutrition programme for children and expectant mothers belonging to below-poverty line families.
- viii) Counseling for needy women, destitute and orphans to enable them to claim their legal right and to provide necessary wherewithal for the same.
- ix) Development of women and children in rural areas.
- x) Any other area being covered by CAPART.
